

**Collage Assignment: 40 Marks (Application)**

**\*\*\*What is a Collage?**

- A collage is a pictorial technique in which photographs, newspaper cuttings, and other suitable objects are pasted on to a flat surface.

You will be creating your own collage. You will choose your own image, symbol or label to recreate in a collage form.

1. To start you will need to find a picture or image - cartoon or character
2. Draw the image onto your paper and treat this similar to paint by number and write out your colour scheme (where colours will be pasted)
3. You will be using construction paper for your material to create your collage. Please only grab one colour at a time, and when you need more, ask the teacher for assistance. You may use some newspaper in areas that you feel will look good.
  - A good idea is to have Zip-lock bags, paper bags, newspaper bag, small container, boxes, etc... To keep all your colours or scraps in

**40 Marks Application**

**Construction: 20 marks**

- ✗ Are the pieces on the collage falling off?
- ✗ You may cut your pieces with scissors or rip them. Choose one method for the whole project.
- ✗ Pieces must be no bigger than the size of a loonie.

**Creation: 20 marks**

- ✗ Does the collage look like the image, symbol or label chosen?
- ✗ The collage needs to have at least 3 colours.
- ✗ Did the student plan out the design (decide where the colours went)
- ✗ Is the whole page covered with ripped/cut the paper
