Contour Portrait Study	30 marks Application
<p>Contour Line: Lines that describe the inside detail and exterior detail of an object. (LIKE A DETAILED COLOURING BOOK)</p> <ul style="list-style-type: none">➤ Using cartridge paper you will fill the page with a drawing of a portrait (just the face) in a contour line style.➤ You may use pen, pencil, marker, colour pencil.➤ Remember that Contour line means the interior and exterior lines of a figure.➤ You must look at the image of your choice and establish where the lines are. Sometimes it is best if you draw the lines onto the image you have chosen, or transfer the image into grayscale.➤ We will be heading to the library for a brief moment so everyone can find a close up image of whomever they would like to choose to draw. You can choose yourself, a celebrity, a family member etc..➤ Think about who you will draw and look at the different types of lines in their face.
